```javascript
fetch("http://localhost:4000/graphql", {
  method: "POST",
  headers: {
    "Content-Type": "application/json",
    Accept: "application/json",
  },
  body: JSON.stringify({ query }),
})
  .then((response) ⇒ response.json())
  .then((data) ⇒ console.log(data)) 😕 ❓
  .catch((error) ⇒ console.error("Error fetching data:",
error));
```
